Tremor International Announces Closing of \$25 Million Strategic Investment in VIDAA

Tremor International Ltd. (AIM/NASDAQ: TRMR) (“Tremor” or the “Company”), a global leader in Video, Data, and Connected TV (“CTV”) advertising offering an end-to-end technology platform that enables advertisers to optimize their campaigns and media partners to maximize yield on their digital advertising inventory, today announces the closing of its previously announced \$25 million equity investment in VIDAA (the “Investment”), which was satisfied through existing cash resources.

VIDAA is a smart TV operating system and streaming platform, and a subsidiary of Hisense Co., Ltd. In connection with the Investment Tremor has also extended, for multiple years, its exclusive agreement to share VIDAA’s automatic content recognition (“ACR”) data for global measurement and targeting across the Company’s end-to-end platform. VIDAA has also granted exclusivity in the US, UK, Canada, and Australia to the Unruly SSP and Spearad ad server, which was already designated as its preferred monetization platform globally. VIDAA is expected to utilize the Investment to support its plan to increase its distribution across additional OEMs, with the goal to grow global reach in key markets such as the US, UK, Canada, Germany, Japan, and Australia, as well as others.
